**INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS**

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.gsa.gov/fas). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page (www.gsa.gov/fas) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- ☐ The Geographic Scope of Contract will be domestic and overseas delivery.
- ☐ The Geographic Scope of Contract will be overseas delivery only.
- ☒ The Geographic Scope of Contract will be domestic delivery only.

2. CONTRACTOR'S ORDERING ADDRESS AND PAYMENT INFORMATION

Equinix, Inc.
1 Lagoon Drive, 4th Floor
Redwood City, CA 94065

Contractors are required to accept credit cards for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Credit cards will be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number can be used by ordering activities to obtain technical and/or ordering assistance:

(650) 598-6000

3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. STATISTICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279

Block 9: G. Order/Modification Under Federal Schedule
Block 16: Data Universal Numbering System (DUNS) Number: **045267338**
Block 30: Type of Contractor - **C. Large Business**
Block 31: Woman-Owned Small Business - **No**
Block 36: Contractor's Taxpayer Identification Number (TIN): **77-0559468**

4a. CAGE Code: **3EWZ3**

4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB DESTINATION

6. DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER

DELIVERY TIME (Days ARO)

132-52

As negotiated between the Contractor and Ordering agency.

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. DISCOUNTS: PRICES SHOWN ARE NET PRICES; BASIC DISCOUNTS HAVE BEEN DEDUCTED

- a. Prompt Payment: 0%, NET 30 days from receipt of invoice or date of acceptance, whichever is later.
- b. Quantity: None
- c. Dollar Volume: None
- d. Government Educational Institutions: Same discounts as all government customers

8. TRADE AGREEMENTS ACT OF 1979, AS AMENDED

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING

Not applicable

10. SMALL REQUIREMENTS

The minimum dollar value of orders to be issued is **\$100.00**.

11. MAXIMUM ORDER (ALL DOLLAR AMOUNTS ARE EXCLUSIVE OF ANY DISCOUNT FOR PROMPT PAYMENT.)

- a. The Maximum Order value for the following Special Item Number (SIN) is \$500,000:
Special Item Number 132-52 - Electronic Commerce (EC) Services

12. ORDERING PROCEEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
- b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS

Ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS)

Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS)

Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2001)

- (a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
- (b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. The Industrial Funding Fee does NOT apply to travel and per diem charges. *(NOTE: Refer to FAR Part 31.205-46 Travel Costs, for allowable costs that pertain to official company business travel in regards to this contract.)*
- (c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- (d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- (e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.

- (f) **Organizational Conflicts of Interest:** Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
- (g) **Documentation/Standards:** The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- (h) **Data/Deliverable Requirements:** Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- (i) **Government-Furnished Property:** As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- (j) **Availability of Funds:** Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

15. **CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES**

Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See C.1.)

16. **GSA Advantage!**

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is <http://www.gsa.gov/fas/>.

17. **PURCHASE OF OPEN MARKET ITEMS**

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.401(d). For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and

- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

- a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders;
- (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
- (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

- b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

None

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage

determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

23. SECTION 508 COMPLIANCE

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following: www.equinox.com

The EIT standard can be found at: www.Section508.gov/.

24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order –

- (a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- (b) The following statement:
“This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.”

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)

- (a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
- (b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—
 - (1) For such period as the laws of the State in which this contract is to be performed prescribe; or
 - (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.
- (c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

27. ADVANCE PAYMENTS

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

<p style="text-align: center;">TERMS AND CONDITIONS APPLICABLE TO ELECTRONIC COMMERCE (EC) SERVICES (SPECIAL ITEM NUMBER 132-52)</p>

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-52 Electronic Commerce Services apply exclusively to EC Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of EC Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the

Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

- (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- (b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- (c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- (d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite EC Services.

9. INDEPENDENT CONTRACTOR

All EC Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor's or its affiliates' objectivity in performing contract work.

- b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for EC services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003)) applies to labor-hour orders placed under this contract.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF EC SERVICES AND PRICING

Please refer to the descriptions and pricing incorporated into this GSA Pricelist.

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

PREAMBLE

Equinix, Inc. provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact

***THE FOLLOWING IS A SUGGESTED
BLANKET PURCHASE AGREEMENT (BPA) FORMAT***

**BEST VALUE
BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE**

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (Ordering Activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _____.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

(CUSTOMER NAME)
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s)_____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (Ordering Activity):

- (1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
--------------------------	-----------------------------

- (2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
-------------	----------------------------

- (3) The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

- (4) This BPA does not obligate any funds.

- (5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.

- (6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
--------	------------------

- (7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

- (8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- (a) Name of Contractor;
- (b) Contract Number;
- (c) BPA Number;
- (d) Model Number or National Stock Number (NSN);
- (e) Purchase Order Number;
- (f) Date of Purchase;
- (g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
- (h) Date of Shipment.

- (9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

- (10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

BASIC GUIDELINES FOR USING “CONTRACTOR TEAM ARRANGEMENTS”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.

INTRODUCTION TO EQUINIX, INC.

Equinix, Inc. (Nasdaq: EQIX) operates International Business Exchange™ (IBX®) data centers in 38 markets across 13 countries in the Americas, EMEA, and Asia-Pacific, providing colocation, interconnection, and managed IT infrastructure services. Equinix colocation services include cabinets, power, IBX®Flex office and storage. Interconnection services provide customers with physical cross-connect/direct interconnections, enabling customers to directly and privately interconnect with other IBX® customers. Equinix Exchange products allow customers to interconnect and peer via a central switching fabric within the IBX® data center. Equinix managed IT infrastructure services include professional services such as installation, cabling and remote smart-hands services, which provide customers with the option to utilize IBX® staff for various tasks including power cycling, card swapping, and emergency equipment replacement. Equinix Direct is a managed multi-homing service that allows customers to manage multiple network connections over a single interface. Equinix markets its products and services through a direct sales force and via a channel marketing program. Equinix was founded in 1998 and is based in Redwood City, California.

Equinix currently maintains IBX® datacenter facilities within the following markets globally:

Products, Services, and Capabilities Overview:

Equinix is the leading provider of global datacenter services. Equinix's International Business Exchange™ (IBX®) datacenters offer our Government clients a secure, highly-reliable facility to house their most critical operational platforms. Every day, without fail, and without compromise, the people who control the world's most valued information assets, place their trust in Equinix, leveraging our insight, expertise, and world-class services to connect their vital systems and protect their information.

No other provider in the datacenter industry has the global reach of Equinix. Equinix currently operates 98 IBX® datacenters in 38 metropolitan areas throughout North America, South America, Europe, and Asia-Pacific. More than 675 networks, carriers and Internet Service Providers (ISPs) are accessible within Equinix IBX® centers, including the world's largest IP backbone networks. In addition, Equinix serves more than 4,000 customers worldwide in all market segments ranging from Fortune 1000 companies and government organizations to cloud service providers, carriers, content companies, financial organizations, small start-ups and research groups. Below is a summary of all currently available Equinix products and services:

- **Colocation Services** - Equinix colocation services enable our customers to safeguard mission-critical data with the highest levels of security and operational reliability. Our customers get more than just world-class colocation—our customers also gain the ability to leverage vital ecosystems where major networks, enterprises and business partners interconnect to each other, along with

access to more than 675 networks. By colocating vital systems with Equinix, our customers can benefit from a proven track record of performance that includes:

- ◇ Industry-leading global average of 99.9999% uptime
- ◇ Proven expertise in configuring and supporting high-power density deployments
- ◇ Largest scalable, worldwide footprint of over 6 million square feet of IBX® data centers across 38 markets
- ◇ 675+ networks available for interconnection and traffic exchange via direct cross connect, peering or Ethernet services

Government organizations, global enterprises, financial institutions, the largest networks and the Internet's foremost content companies trust Equinix with what matters to them most—their information assets. This is what we at Equinix do everyday—without compromise.

- **Power** - Equinix has some of the world's foremost experts on power management. Our engineers have designed International Business Exchange™ (IBX®) power systems with built-in redundancy, full Uninterruptible Power Supply (UPS) systems with N+1 redundancy levels or greater, and backup generator systems in the event of a local utility failure. In addition, our teams will work with our customers to configure data center installations to accommodate specific high-power requirements. Equinix sells AC and DC power in all regions; AC circuit voltage varies by region. Within North America, Equinix offers 120VAC Single Phase, 208 VAC Single Phase, 208VAC Three Phase, DC -48V Circuits
- **HVAC/Cooling** - Our precision HVAC systems cool the most demanding high-power deployments. The HVAC system provides appropriate airflow, temperature, and humidity to provide optimum conditions for equipment operation and to minimize downtime due to equipment failure. In addition to providing effective colocation cooling measures, Equinix strives to keep its facilities efficient and sustainable in its use of technology and design. Several IBX® data centers are LEED-certified, while in Europe, Equinix has received the Green Award from Data Centres Europe
- **Cabinet and Cage Space** - Our industry-leading team of technical experts has configured some of the most complex data center installations imaginable. You can rely on us to recommend colocation cage, suite and server cabinet solutions to meet your requirements for physical security and power usage. With the increasing power requirements of today's technology, high-power density configurations are critical to global businesses. We have the expertise to configure cabinet and racking solutions that can meet your power usage requirements and allow for efficient heat dissipation. Cage, Suite, and Cabinet specifications and offerings vary by region. The North American Cage Product consists of Shared Areas (formerly Shared Cages) and Private Cages with the latter further divided into Standard and Premium Private Cages. The primary difference between Shared Areas and Private Cages is that Private Cages house one customer exclusively (i.e., one customer of record) and are reserved for deployments that are greater than or equal to 4 cabinet equivalents (AP/EU 5 cab minimum). The key difference between a Standard and Premium Private Cage is the Premium Cage comes with additional security features such as a biometric hand reader and dedicated camera. Within a Shared Area or Private Cage are cabinets. Cages and cabinets represent the basic housing for customer equipment within an IBX.. Most space within Equinix IBX® data centers is built-to-order and is assigned based on power allocations and/or quantity of cabinets. Cage space includes mesh walls, a demarcation rack with patch panels, locking door, ladder rack and fiber raceway up to first

cabinet position or up to 10 feet; security accessories include dedicated cameras and biometric hand scanners.. Cabinets are preconfigured with rails, grounding studs, panel cut-outs at top for fans (sold separately), and shelf. Closed cabinet configurations have kinetic locks with numbered keypads.

- **IBX®Flex Space** - From dedicated business suites to dedicated storage areas, our virtual office space/storage solutions offer maximum flexibility, redundancy, and security within the data center environment. IBX®flex is designed to provide our customers with non-cage space within close proximity to an IBX® data center. IBX®Flex units are designed to support mission-critical, 24-hour operations and/or to be used as storage areas customer equipment or replacement parts. IBX®Flex space solutions are equipped with industry-leading environmental support systems, such as: fire suppression systems, environmental control and shared HVAC, secure access through biometric hand-geometry or card scanners, manned security and monitoring via CCTV cameras, conference rooms, kitchen/break rooms, bathrooms, a shipping & receiving area, smoke detection (per unit), and generator-protected lighting/HVAC systems.
- **IBX® Standards and Compliance** – Equinix is committed to operating facilities that meet the rigorous standards and compliance requirements of government organizations and global businesses. Equinix works with several regulatory and standards organizations to ensure compliance to multiple standards including operation of the data center to sustainability and environmental regulations.
 - **SAS 70 Compliance** – The SAS 70 audit minimizes the need for multiple sets of auditors to separately examine the same set of controls that govern a third party's services. "SAS" is an acronym for Statement on Auditing Standards, which are standards issued by the American Institute of Certified Public Accountants. The completion of SAS 70 Type II audits for Equinix IBX® data centers vary by location and facility in the United States. The American Institute of Certified Public Accountants (AICPA) redrafted the Statement on Auditing Standards (SAS) 70 guidance around the execution of third-party Service Organization reports: **Statement on Standards for Attestation Engagements (SSAE) 16**, Reporting on Controls in a Service Organization. These new standards will be effective for service auditors' assurance reports covering periods ending on or after June 15, 2011. These revisions of SAS 70 represent the first significant modifications to the standard since it was issued nearly two decades ago. SSAE 16 is intended to help bring US companies up to date with new international service organization reporting standards, ISAE 3402. This will simplify the process for auditing and reporting on international organizations.
 - **ISO Certification** – ISO is the world largest standards developing organization. ISO 27001 is the internationally recognized standard defining the requirements for an organization's Information Security Management System (ISMS). The audit and certification process ensures the availability, integrity, and confidentiality of information and network systems. Several Equinix IBX® data centers across Europe and Asia have received ISO 27001 certification. Through our ISO-9001 certification, Equinix has demonstrated that it has a quality management system in place that always meets the requirements of our customers. The system and quality objectives are reviewed, updated and amended regularly to guarantee continued

suitability. Equinix has received ISO-9001 certification for all of its European data center locations.

- LEED Certification – LEED, or Leadership in Energy and Environmental Design, is an internationally recognized green building certification system. Developed by the U.S. Green Building Council (USGBC) in March 2000, LEED provides building owners and operators with a framework for identifying and implementing practical and measurable green building design, construction, operations and maintenance solutions. Select IBX® data centers in the United States have received LEED certification
- Interconnection - The world's top networks, carriers and Internet Service Providers have established strategic points of presence (PoP) sites at Equinix International Business Exchange™ (IBX®) data centers all over the globe. Equinix boasts the largest number of networks under the roof of any single data center provider. With more than over 6 million square feet of data-center capacity in strategic metropolitan markets in North & South America, Europe and Asia-Pacific, Equinix customers can directly interconnect with every major global network and ISP for critical peering, transit and traffic exchange requirements. Equinix offers our customers the ability to quickly connect to the widest choice of 675+ providers to optimize IT performance and resilience while controlling costs. Our interconnection options allow our customers deliver low-latency reach to end-users while reducing overall time-to-market by leveraging direct connections between corporate WAN providers and enterprise, cloud and managed service providers. Further, our customers are free to choose one global infrastructure partner, while also maintaining the flexibility to optimize regional and local network structure. Equinix offers a number of interconnection options to our customers:
 - Cross Connects - A single cross connect can connect an Equinix customer to our dynamic ecosystem of business partners, content providers, networks, carriers and Internet service providers within an IBX® facility. Equinix cross connect options include CAT5/6, COAX, Fiber, T1 (CAT5) & POTS (CAT3). In addition, Equinix offers intra-customer cross connects for customers expanding to another space within the same IBX data center and can also provide campus cross connects to allow customers to connect between buildings or floors via conduits with pre-run Single-Mode Fiber.
 - Metro Connect - Metro Connect provides network connectivity across multiple IBX® centers within a metropolitan area, giving Equinix customers direct access to 675+ networks and 3,350 enterprises, cloud, digital content and financial companies. Similar to the interconnection services provided within an IBX®, Metro Connect provides a highly reliable connection between customer demarcation points. In most cases Metro Connect services are offered over dedicated leased-fiber facilities and industry-leading network technology. Equinix offers both dedicated Layer 1 and switch-based Layer 2 services. The interface and speed options range from 100M FastE up to 10GigE—both active and passive solutions. All Metro Connect service types include an end-to-end connection inclusive of a cross connect at the customer demarcation in our IBX® facility (typically the customer cage fiber distribution panel). It also includes media converters where necessary.

- Intra-building Connections/Innerduct - Equinix Innerduct Space enables carriers to pull fiber into our IBX® center(s) and provide direct service to our marketplace of customers. Equinix Innerduct Space consists of a license to enter and/or traverse an Equinix IBX® center and a dedicated physical path made up of a flexible Innerduct inside a larger conduit. An Innerduct originates in the carrier's cage or rack; however the Innerduct can terminate in an IBX® center Meet-Me Room, building basement or street manhole. The Innerduct can also provide a path across an IBX® campus environment to reduce transit costs.
- Equinix Internet Exchange - The Equinix Internet Exchange facilitates IP peering via an Ethernet switching fabric. It is a cost-effective service designed to reduce operating costs and enable efficient IP traffic interchange by aggregating thousands of peering sessions onto a shared fabric connecting peers at multiple IBX locations in 18 global metros. Used by over 650 networks globally, peering through the Internet Exchange enhances network performance by eliminating network hops and can reduce your cost of bandwidth. Network service providers (such as ISPs, carriers, international PTTs and broadband networks) as well as content, e-commerce and enterprise companies delivering video, gaming or other applications use peering relationships to achieve network efficiency. Peering offers an alternative to the traditional method of purchasing IP transit to reach partners across the Internet. By enabling data to bypass intermediary networks, the Equinix Internet Exchange delivers enhanced end-to-end network performance, speed and reliability, while lowering overall IP transit costs.
- Equinix Carrier Ethernet Exchange - The Equinix Carrier Ethernet Exchange allows Ethernet buyers and sellers to discover, transact and interconnect to each other. The Carrier Ethernet Exchange fast-tracks Ethernet service launches while lowering operational costs and accelerating revenue growth. The Carrier Ethernet Exchange is available in 16 markets throughout North America, Europe and Asia.
- Equinix Direct - Equinix Direct is a cost-effective IP connectivity solution that features a broad choice of top networks, competitive pricing, performance control and single-source billing via an online portal. Through Equinix Direct, our customers are able to connect to a variety of bandwidth providers with short-term contracts and no bandwidth minimums. The service includes access to a portal interface to select specific providers offering bandwidth from both direct on-net termination and transit services, a wide-range of short-term and commitment-level IP offerings to meet every budget and traffic requirement—all at competitive rates, automated management of network connections through an easy-to-use Web interface, including turnkey multi-homing using BGP, and a single bill identifying all providers and associated traffic usage
- Business Continuity Trading Room - Business Continuity Trading Room (BCTR) is a service that supports recovery requirements for a financial firm's front office and back office personnel. Service offerings include Select Shared, Select Exclusive, Dedicated and Private Suite, and are designed to support different risk profiles and business needs. The Business Continuity services are offered in select financial markets around the globe.. All BCTR positions are power-protected with UPS and generators in highly secure facilities featuring 24/7 technical staff, fully furnished workstations for front and back office, desktop technology, multiple monitors, VoIP telephone service, and interconnection services (as required).

- Smart Hands Service(s) - Through our Smart Hands service, our highly trained and experienced IBX® Technicians can provide assistance for remote management, custom installations and trouble shooting of your equipment. Our Smart Hands technicians are trained in the latest technologies and they are available 24 hours a day, seven days a week to assist with a variety of maintenance and support activities including but not limited too:
 - On-site/off-site technical assistance and troubleshooting
 - Equipment installations and configurations
 - Ladder racking, pre-wiring of patch panels and equipment
 - Interface card removal, installation and configuration
 - Testing media for continuity and proper signaling
 - Providing visual verifications to assist in remote troubleshooting
 - Inventorying/labeling of equipment
 - Assistance in the conference room and AV equipment setup
 - Power cycling a router, server, switch and soft-booting a server
 - Adding, removing or verifying a demarcation
 - Moving equipment within your space and cabinets
 - Moving or securing a cable

- Network Timing - Equinix offers a redundant timing reference source providing solutions for use with T1 BITS Synchronization or Network Timing Protocol (NTP). Synchronization is the means of keeping all digital equipment in a communications network operating at the same average rate. For digital transmission, information is coded into discrete pulses. When these pulses are transmitted through a network of digital communication links and nodes, all entities must be synchronized. Stratum 1 is the most accurate synchronization and is used as the basis for the highly accurate clocks that control timing for the network. Equinix's clocking product typically features a primary source via Global Positioning System (GPS) and redundant backup via a separate CDMA antenna/receiver. In the event both feeds fail, the Equinix standard timing system maintains precision clocking performance for up to 30 days. The basic Stratum 1 Clocking product includes a single feed to the customer from the Equinix site Clocking Rack. A second line, carrying a redundant signal, can be added for an additional charge. This second signal is fed from a redundant output card incorporated within the Equinix Clocking system.

- Ladder Racks - At Equinix IBX® centers, cabinet to cabinet cable management can be achieved by purchasing Ladder Rack products. Equinix provides 4 different types of Ladder Rack options utilizing Chatsworth Universal 12" ladder racks. These options include:
 - CABINET TOP MOUNTED 12" LADDER RACK - Ladder racking is placed flush on top of the cabinets in 10ft sections, attached directly to the cabinets.
 - CABINET ELEVATED 12" LADDER RACK - Ladder racking is placed above the cabinets in 10ft sections, elevated from the cabinets.
 - RELAY RACK TOP MOUNTED 12" LADDER RACK - Ladder racking is placed flush on top of the relay racks in 10ft sections using rack to runway mounting plate.
 - OVERHEAD SUSPENDED 12" LADDER RACK - Ladder racking is suspended from overhead cage structure above the cabinets in 10-ft sections.

- Patch Panels – Equinix offers a variety of patch panels including the following options:

- 12- and 24-port Ethernet Panels
 - 28-port DS1 Panel
 - 24-port DS3 Panel with modules
 - 24-, 48-, 72-, and 96-port Fiber Panels
- Antenna Services - Equinix can provide customers with the ability to access limited roof space for antenna installations.
